08/12/09 ::

President's Patter

It has been good for us to acknowledge Australian Rotary Health's mental health research capability and recognise how important it is for us to support such projects and encourage mental health awareness in our community, with the advent of the Great Australian Bike Ride coming to town recently.

To host them and their support team from Wednesday through Friday last week in the manner we did, was very much appreciated by them, whether in kind or by donation. They really enjoyed our relaxed environment and we've received tremendous feedback on what and how we organised things for them, especially the welcome and the planning for their lay-day and the fundraiser dinner on Thursday evening.

Many thanks go to the BBQ cooks for our lovely meal at the Lions Hostel on Wednesday night and especially to Vocational Director, Rod Patterson, who ensured every detail was organised for the GABR Crew. Right from when they first arrived a little earlier than expected, to managing to get two local riders to ride with the GABR on Friday morning, as far as Tumbly Bay.

We have also gained some new contacts through the Ride Director Geoff Kennedy, with his Rotary Club of Healesville. They are close to the fire ground and very much in touch with the needs for ongoing fire relief in their community, following the Black Saturday fires in Victoria. Something we will follow up for a potential relief-working adventure in the future!

This week we have Chris Mesecke as our guest speaker. He is the Apprenticeship Broker for DECS on EP and will enlighten us about apprenticeships in the 21st Century and it will be interesting to hear all about "Trade schools of the Future".

This Friday night is the 'Light the Night' Walk for the Leukaemia Foundation, and although there may be some members 'walking' to remember loved ones who have succumbed, or acknowledge those who need care in survival, we as a club have undertaken to help set them up for the morning. Then later in the day supply and operate the BBQ for the public, from 6.00 pm. We need to ensure that we fill the roster, so all goes without a hitch.

We look forward to a good attendance for our 'clean up morning' at Puckridge Park on the Sunday 27 September for both members and partners, followed by a BBQ lunch.

And Just in case it's slipped peoples' minds with many other things on the go at present, we have the GSE Team from Wales visiting us prior to the D9500 Conference at Kadina; from the Tuesday 29 September until Friday 2 October. They will be our guests at our dinner meeting on 29th and are being home hosted by Jackie and I, Adrian and Margaret Glover, Brian and Deirdre Turvey, Rod and Judith Patterson and PP Greg and Karen Patterson. Thanks go to them and especially to Noel Welfare for all the coordination with District, and organising the vocational and recreation days for them on 30 September and Thursday 1 October. We may need some help in transporting the 6 team members from Port Lincoln to the Conference on the Friday. Mike Leech is filling Noel's shoes whilst he's away, during the GSE Teams' stay.

Tonight please check the two attendance sheets being circulated; One for the Puckridge Park 'clean-up' and BBQ on Sunday 27 September and the other for the GSE Team Visit on Tuesday September 29, a 'Ladies' night'.

President David

Invocation

For food, faith and fellowship and every opportunity of service we give you thanks O'Lord.

Celebrations

Birthdays

Sept 22— Noel Welfare, Peter Whillas

Club Anniversary

Sept 26 — Pat Callaghan 17 yrs
